## Cororid® Prep-XDN. Surgical Skin Antisepsis (Skin prepping)

**Chlorhexidine Gluconate IP 10% v/v and Isopropyl Alcohol IP 70% v/v**

**Broad Spectrum Antimicrobial Solution**

# Cororid® Prep-XDN.

## Surgical Skin Antisepsis (Skin prepping)

**Chlorhexidine Gluconate IP 10% v/v  
and Isopropyl Alcohol IP 70% v/v**

### Composition:

Each 100 ml contains:

Chlorhexidine Gluconate IP 10% v/v  
(equivalent to Chlorhexidine Gluconate 2% w/v)  
Isopropyl Alcohol IP 70% v/v

#IP stands for Indian Pharmacopoeia

### Product Properties:

- WHO recommended formulation for surgical site skin preparation
- Fortified with Indian Pharmacopoeia grade Chlorhexidine gluconate & Isopropyl alcohol (≥ 99.8% purity)
- Developed for hospital and professional use
- Effective against bacteria, fungi and viruses
- Broad spectrum, fast acting

### Applications:

For pre-surgical and post-surgical skin antisepsis.

### Direction for Use:

Use undiluted. Apply directly to skin. Swab skin to visibly wet area to be treated. Leave Cororid Prep-XDN for minimum 2 minutes on the skin and allow it to dry. Do not apply on broken skin or mucus membranes. Do not use on neonats.

### Precautions & Contraindications:

**Always read the label and use only as directed**

- For external use only. Do not swallow
- Flammable. Keep away from fire or flame
- Keep out of reach of children
- Avoid contact with eyes. In case of eye contact, immediately flush with water
- Discontinue use if skin irritation or redness develops
- Avoid contact with the brain, meninges, eyes and middle ear. Should not contact with mucosa
- Do not mix with detergents and other chemicals
- Do not use after the expiry date
- Contraindicated in case of known hypersensitivity to Chlorhexidine Gluconate and alcohol

### Packing:

100 ml	100 Bottles / Carton
500 ml	20 Bottles / Carton
